what Lager Beer really contains? You SHOULD know, if you don't. Most people have peculiar ideas about it. Lager Beer con-

- Plenty of well-boiled water: that makes it a safe drink
- Carbonic acid gas; that makes it a lively drink.

  Less than 3% of alcohol; that makes it a stimulating and refreshing drink, but not an intoxicant.

  Mait extract in solution; that makes for nourishment.
- A little hop extract; that gives it a tonic effect.
- (6) Nothing injurious; that's all.
  So there's no reason why you shouldn't drink

Kerrigan, with one of the most important prisoners that has passed through here in some time, and for whom Mr. Kerrigan has, in the last two years, traveled a distance of a little over 27,000 miles. The man over whom he has custody is H. C. McKinley, who was implicated in the Oregon land fraud cases and he is reputed to have illegally cleared several hundred thousand dol tars through his operations in the limber lands of Oregon,

This is the second trip that Mr. Kerrigan has made after McKinley, ad this time he caught him at Tien Yain, China. On the former trip Me-Kinley escaped the authorities beore Kerrigan arrived. H. C. Me-Rinley is a distant relative of the famous President of the United States of the same name, but, from appearinces, he has not any of his noble amesake's notable qualities. He is good-looking man and is an excelent musteian.

This is the last through trip of the America Maru, and she only carried twelve cabin passengers. Her place will be taken by the splendid new liner Tenyo Maru, and the America will be changed to an oil-burner and put on another run. She salls for San Francisco this evening at
